## TODAY'S MEETING

This is an additional meeting to our normal programme of 6 race days and has been brought into being to give the competitors a chance to try out their cars in racing situations but where results do not matter for championship points. This meeting is only open to SMRC members to compete in and does not count in the Scottish Championships which will be run over the remaining 6 race meetings at Ingliston and Knockhill's 4 meetings.

The growth of road car racing means that today we have 3 races for these cars and we expect the usual close racing throughout the field.

Because of the restricted daylight still available to us, we are limiting the day's racing to 8 events and have amalgamated the FF2000 cars with the Formula Libre cars. It is our hope that this year FF2000 will continue to develop and we will have enough cars for this class to race on its own for the rest of the year.

Changes in the entries for GT cars over the years have led us to produce only two classes for these cars to race in, with the split at 1000 c.c. This gives us enough entries in each class to give competitive class racing.
