# TODAY'S MEETING

WITH JUST two race meetings to go in the Scottish motor racing championships it is still close at the top of most of them and the final result will be down to the last event. The closest fought is the Abercromby Group Road Saloon and Sports Championship, which is the first year in which the popular road cars have had their own Championship.

The current leader is John Peace the Tranent farmer with his Ginetta G27 who is just 2 points ahead of Alaster Cunningham with his Opel Manta who in turn is one point ahead of Edinburgh driver Derek Hastings with a Hillman Imp. All three are entered for their respective classes on Sunday but as every competitor can drop one score the Championship will not be decided until the last round.

Something similar exists in both the Shell Gemini Formula Ford Senior Championship and the Silverscreen Formula Ford 2000 Championship both of which are being led by Cameron Binnie using a Van Diemen in the FF 1600 Championship and a Reynard in the FF 2000 Championship. The odds are narrower in the former Championship as Colin Harper from Aberdeen has the advantage in a larger number of high scores and in the FF 2000 Championship Binnie is trying to keep ahead of Knockhill circuit owner Derek Butcher, also in a Reynard.

Amongst the interesting cars at this Ingliston race meeting is Carl Tweedie's big TVR Tuscan which has been competing in the National Championship. Carl entered earlier in the season but broke a drive shaft in practice such was the power from the car coming out of the Hairpin. He promises not to do the same this time. It is certainly a spectacular car and should make a few people sit up and take notice. Not that he is going to threaten Ian Bruce, however, whose Darrien is a real rocket off the line driven by someone who is at home as much in the wet as the dry. We welcome back today one of Ingliston's former regular saloon car drivers, Ricky Gauld from Aberdeen, who is making his comeback driving Ron Cummings fearsome Lotus Esprit with its 3.4 litre Ford GA engine.

The Road Saloon class has a very full grid of 21 cars and if all qualify after practice one will have to be bumped off the back as Ingliston can only start 20 cars in a race. What has been encouraging this year has been the rise of the up to 1300cc class and there are no fewer than five Minis taking part - appropriate on this the 30th anniversary of the birth of the Mini. Nobody can catch Alistair McCarter's car which is the quickest of the bunch.

In the 1600cc class the Fiestas are again going to be challenged by the Toyotas of Iain Cowie and Roy Knowles.

In the big saloon class we have a welcome newcomer in Lindsay Mann who has transferred his Broxburn Commercial's sponsorship to a Ford Capri. The car is the one which was raced by Howard Fowler, Tom McCallum and Steven Robertson a couple of seasons ago and should know its way round the circuit by now.

The final race meeting of the season is on October 15 when there should be a grandstand finish to the season.

# Drive of the Century

Century Self Drive is an exciting young company that has burst on to the rental market. It is just three years since the first branch opened in Manchester and, since then, the company has gone from strength to strength.

There are now 18 branches throughout the UK including the first two in Scotland – Glasgow and Edinburgh – opened towards the end of 1988. The branches are well positioned to serve the airports and offer a wide range of vehicles to cater for every need.

1989 will see 12 more branches in the UK and the first step into the European market with branches at the six major airport locations opening in May.

Century offer newly registered cars at a price that the man in the street can afford – from only £49.00 + VAT a week for a Ford Fiesta. They are confident that the prices cannot be beaten and newly registered means just that – every car on the fleet is less than six months old.

Century is environmentally aware as well – it was the first car rental company in the country to convert a substantial portion of its fleet to run on lead free petrol. More than 3500 Vauxhall cars were purchased in the second half of 1988. Customer demand was so high that a further 15,000 Vauxhall cars have been ordered since then. It's gratifying to see everybody else following its lead. And of course it's another cost-cutter for the customer. For anybody that is still worried about the availability of lead free its as well to point out that converted cars can run on leaded as well so there is no chance of being stranded if lead free is not to hand.

The company philosophy is clear and simple – Car rental offering new cars at unbeatable prices – No wonder it can't fail.

### FLAG SIGNALS

Races at Ingliston except the Historic Car event, are now started by Red/Green lights over the circuit. But also signalling to the drivers is by the use of flags round the circuit. The meaning of these signals is as follows:

**Blue Flag, stationary** — Another competitor is following you close by.

**Blue Flag, waved** — Another competitor is trying to overtake you.

**White Flag** — A service car or slow moving car is on the circuit.

**Yellow Flag, stationary** — Danger, no overtaking and slow down.

**Yellow Flag, waved** — Great danger, slow down, be prepared to stop. No overtaking.

**Yellow Flag with Red Stripes, stationary** — Slippery surface ahead.

**Yellow Flag with Red Stripes, waved** — Slippery surface imminent.

**Green Flag** — All clear, at the end of a danger area controlled by yellow flags. It can also be used to signal the start of a warm-up lap.

**Red Flag** — Immediately stop racing and proceed slowly and with maximum caution to pits or start line obeying marshal's instructions, and being prepared to stop should the track be blocked.

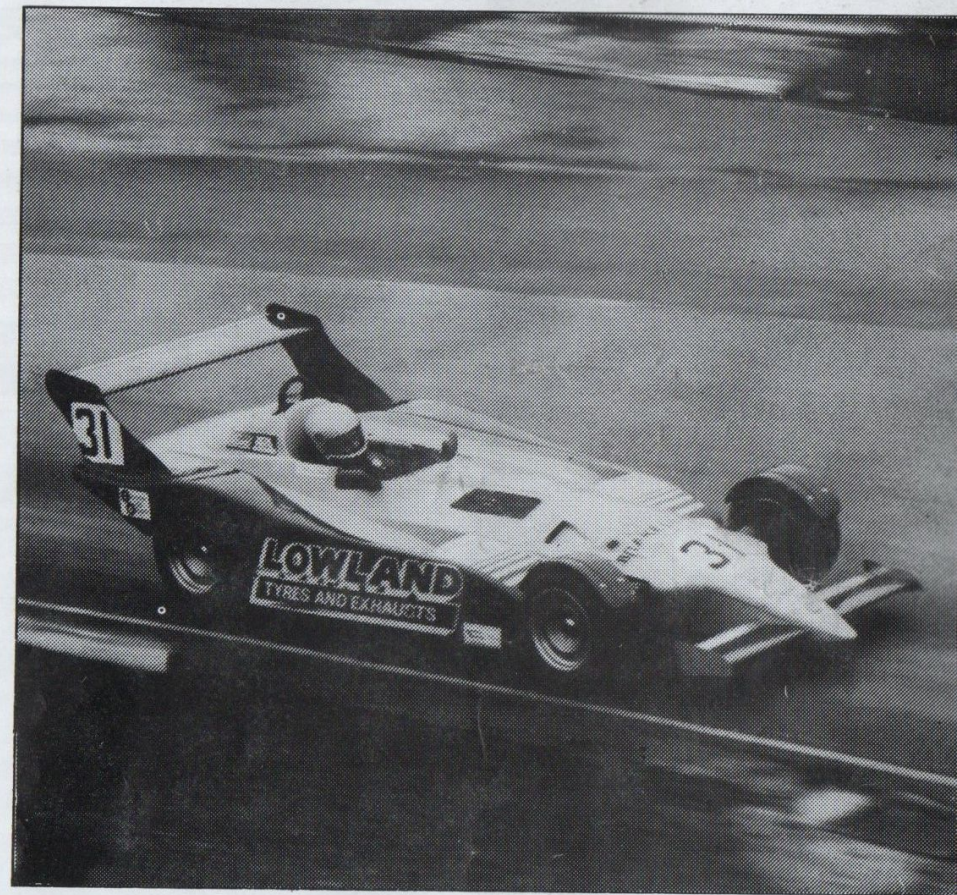

**Black Flag** at individual marshal's posts. The race has been stopped.

**Black Flag with Orange Disc displayed with White Number** — A warning of apparent mechanical failure or of a fire which might not be obvious to the driver. The car concerned *must* call at its pit for repairs on the next lap.

**Black and White Rectangular Flag split diagonally and displayed with a White Number** — A warning to the driver of the car bearing the number that his behaviour is suspect and that he may be black-flagged on further reports.

**Black Flag displayed with White Number** — The driver must stop at his pit within one lap of receiving the signal and report to the Clerk of the Course. A penalty of exclusion may be enforced by removing the car from the race by display of the black flag.

**Black and White Chequered Flag** — End of race or finish.
